  7. Other.

## **1. On the prospects for the development of the European Medical School.**

**HEARD:** Simonets E.M., Candidate of Medical Sciences, Director of the Institute, who spoke about the prospects for the development of the European Medical School for 2024, noting that the prospects for the development of the Institute are correlated with the strategy of the University, and consist in expanding the international partnership of the IEU with educational, scientific, clinical institutions, which is the basis for continuous updating and internationalisation of methods and forms of education in EP; introduction of new EP (dentistry, rehabilitation, medical psychology, organisation and management in the field of health care, nursing); further improving the quality of teaching and qualifications of scientific and pedagogical staff; introduction of practical training of applicants in clinical and laboratory units of the IEU Clinical Alliance; expansion of the simulation training centre; etc.

**DECIDED:** 1. To take into account the information of the director of the institute E.M. Symonets.

2. The teachers of the departments to intensify the work on the publication of scientific articles in the publications included in the scientific and metric databases, in particular Scopus and Web of Science.

3. To intensify career guidance work to increase the number of students by improving the forms of career guidance work. To appoint persons responsible for career guidance at each department of the Institute and to develop an action plan for the admission campaign 2024/2025.

## **2. On the results of surveys of higher education students and academic staff on the status and effectiveness of the use of active learning methods in the educational process.**

**HEARD:** L.V. Ursuliak, Leading Specialist of the Licensing and Accreditation Department of the Department of Education Quality Assurance, who said that in order to find out the state and effectiveness of the use of active teaching methods in the educational process, the Department of Education Quality Assurance of the University conducted two surveys: a survey of higher education students majoring in Medicine (3rd year) on the use of active teaching methods by teachers of the European Medical School and a survey of scientific and pedagogical staff on advanced training in active teaching methods.

According to the results of the survey of scientific and pedagogical staff on advanced training in active teaching methods, strengths and weaknesses were

identified (strengths: readiness for innovation; application of simulation learning technologies in practice; use of active teaching methods; continuous improvement of subject and professional level; use of educational material of different content, type, form, level of complexity; weaknesses: insufficient study of the possibilities of using elements of all educational technologies; interactive

According to the results of the survey of higher education students (3rd year) on the use of active teaching methods by teachers, strengths and weaknesses were identified (strengths: maximum approximation of students' learning activities to the motivation created by the teacher, a positive increase in the use of information technology by teachers; weaknesses: the need to develop and implement methodological measures for the teaching staff, insufficiently formed professional competencies of students), opportunities and threats to the use of active teaching methods by teachers.

**DECIDED:** 1. To consider and discuss the results of surveys of academic staff and students on the status and effectiveness of the use of active learning methods in the educational process at the meetings of the departments.

2. Scientific and pedagogical workers to continue to carry out systematic work on the introduction and improvement of the use of active teaching methods, innovative technologies in the educational process, to improve their professional and pedagogical competence by undergoing advanced training on the introduction and application of active teaching methods, innovative technologies.

### **3. On the creation of the platform "KROK" of the IUEH.**

**HEARD:** D.O. Konopolskyi, Head of the Department of Primary Specialisation (Internship), who HEARD on the creation of the IUE "KROK" platform for the preparation of higher education applicants for KROK-1, KROK-2.

**DECIDED:** Teachers of the departments to use the IUEH platform "KROK" in the classroom to prepare students for KROK-1, 2; to use the rector's cut of knowledge, PREKROK-1, 2.

### **4. On the state of educational work at the institute.**

**HEARD:** Yamkovyi O. Y., Candidate of Pedagogical Sciences, Deputy Director, who noted that the educational work at the Institute is based on the strict implementation of the provisions of the "Concept of National and Patriotic Education in the Education System of Ukraine" approved by the Order of the Ministry of Education and Science of Ukraine dated 06.06.2022 No. 527 and noted the activities that were carried out at the beginning of the 2023/24 academic year.

**DECIDED:** 1. To take note of the information of the Deputy Director O. Yamkovyi and continue to carry out educational work at the University, taking into account the provisions of the Concept of National and Patriotic Education in the Education System of Ukraine.

2. Information on educational and national-patriotic events shall be promptly published on the University website by the organisers of the events.

5. On approval of dissertation topics and individual training plans for higher education students at the third (educational and scientific) level of the Doctor of Philosophy degree.

**HEARD:** E. M. Symonets, Director of the Institute. Candidate of Medical Sciences, who proposed the topics of dissertation research and individual training plans for higher education applicants at the third (educational and scientific) level of the degree of Doctor of Philosophy Demchenko O.S., Ostrovsky I.S., Timchenko A.V.

**DECIDED:** 1. To approve the topics of dissertations for the degree of Doctor of Philosophy:

Demchenko Oleksandr Stanislavovych "Optimisation of intensive care, asynchrony of artificial lung ventilation and cognitive dysfunction in patients with traumatic brain injury and cerebrovascular disease" (supervisor - Candidate of Medicine, Associate Professor Svitlana Mykolaivna Yaroslavska);

Ivan S. Ostrovsky "The significance of immune inflammation markers in the pathogenesis of the psoriatic process and treatment of patients with psoriasis and psoriatic arthropathy" (supervisor - Doctor of Medicine, Professor Roman L. Stepanenko);

Andrii Viktorovych Tymchenko "Psychophysical rehabilitation of military and civilians affected by the Ukrainian-Russian war" (supervisor - Doctor of Medicine, Professor Valentyn Mykhailovych Postrelko).

2. To recommend to the Academic Council of the University to approve the topics of dissertations and individual plans of the above-mentioned applicants for higher education at the third (educational and scientific) level of the degree of Doctor of Philosophy.

**6. On the recommendation to the Academic Council of the University to confer the academic title of Associate Professor at the Department of Paediatrics, Immunology, Infectious and Rare Diseases to Anna Mykhailivna Hilfanova.**

**HEARD:** Yevhen Symonets, MD, PhD, Director of the Institute, who presented the scientific results of Anna Mykhailivna Hilfanova, PhD, D., Lecturer at the Department of Paediatrics, Immunology, Infectious and Rare Diseases and informed that she has all the grounds for awarding her the academic title of Associate Professor: experience of scientific and pedagogical work in a higher

education institution is 8 years 11 months; the last calendar year she has been an Associate Professor of the Department; the results of scientific research after defending her PhD thesis (for the period 2016-2023) were presented in 42 scientific papers. ) were presented in 42 scientific and methodological works, including 7 articles from the main collection of Web of Science, 15 publications in journals indexed in Scopus.

**SPEAKERS:** Bondarenko A.V., Doctor of Medicine, Professor, Head of the Department of Paediatrics, Immunology, Infectious and Rare Diseases, who noted that A.M. Hilfanova conducts lectures and practical classes at a high scientific and methodological level, actively participates in the preparation and conduct of scientific events at the institute, at the department, and involves students in scientific work. That is why there is every reason to apply to the Academic Council of the University for the possibility of awarding Gilfanova A.M. the academic title of associate professor.

Lapiy F.I. PhD, Associate Professor of the Department of Paediatrics, Immunology, Infectious and Rare Diseases, who noted that the number of publications in professional and scientometric publications after the defence of the dissertation, the general list of scientific and educational works, participation in international conferences, recommendations of the department allow to award A.M. Hilfanova the academic title of associate professor.

Babekov G.D., Doctor of Medical Sciences, Professor, who indicated that he supports the opinion of the Head of the Department Bondarenko A.V., Director of the Institute Symonets E.M., Associate Professor Lapiya F.I. on the initiation of a petition to the Academic Council of the University to award the academic title of associate professor to A.M. Hilfanova.

**DECIDED:** To evaluate the scientific and pedagogical activity of A.M. Hilfanova positively as carried out in compliance with academic integrity. To recommend the candidacy of Anna Mykhailivna Hilfanova for the academic title of Associate Professor of the Department of Paediatrics, Immunology, Infectious Diseases.

## 7. Others.

**HEARD:** L.V. Gaiova, MD, PhD, who proposed to organise an excursion for the first- and second-year students to one of the INVIVO medical laboratories, where a wide range of laboratory and diagnostic tests are performed.

**SPEAKERS:** Bondariev R.V., MD, PhD, Head of the Department of Surgical Diseases with the course of anaesthesiology and intensive care, who noted that involving students in attending events of this level helps to increase motivation to study, and also supported the proposal of L.V. Gayova.

**DECIDED:** M.M. Mykhailiuk, Associate Professor of the Department of Fundamental and Preventive Medicine, to organise a visit to the INVIVO laboratory for the first- and second-year students of the European Medical School.
